## Self - Made

The self-made men are those who did not let someone else bank their earnings for them.

After paying off their obligations promptly, they manipulate to have something left for themselves, with that they kept a Savings Account growing and thus accumulated a cash-reserve.

The question which you may ask yourself is: Cannot I do as well and open a Savings Account in the American National Bank and do my own banking?

## Potatoes Still Hitting

**HIGH PRICES.**  
PORTLAND, April 1.—Potato dealers and growers have at last awakened to the fact that there will not be a sufficient amount of potatoes to fill even half the normal requirements of the public.

Purchases by wholesalers were made from farmers today as high as 6 to 6 1/4 cents a pound, there being no price in history that is within even long distance talk of this quotation. Considering the extreme scarcity of supplies at country points it is costing today perhaps 1 to 1 1/2 cents a pound additional to the country price to get potatoes to the markets here because of the greatly added cost of buying and traveling.

## IT TAKES THE JOY

Out of Life—In the Spring When Impure Blood, Lost Appetite,

Lifelessness, lassitude and that tired feeling pull down health to the low level that invites illness.

The knees become weak and life seems hardly worth living. In this condition Hood's Sarsaparilla has the real "human touch." It meets the necessity promptly and completely. It purifies the blood, creates an appetite, "makes food taste good," and aids digestion, thus naturally increasing strength and in a common-sense way building up the whole system. Then the bright days of spring find in you happy response, and the whole world smiles again.

Take Hood's Sarsaparilla for your Spring Medicine—used as such for nearly 50 years by thousands. It "makes food taste good."

Keep on hand Hood's Pills as a gentle laxative or (in larger doses) as an active cathartic.

## Livestock Come In Slowly

and Old Prices Hold.

Only four loads of livestock entered the North Portland alleys for the Wednesday trade and arrivals were light in all divisions. No price changes were indicated.

TENANTS MAY STRIKE  
AGAINST HIGH RENT

NEW YORK, April 1.—The rent strike may be the tenants' chief weapon against profiteering landlords in New York.

Threat to strike against exorbitant rents has been made in scores of communities following a tryout of the plan in Jersey City and Newark, N. J., where, as has been the case in practically every city in the country, unheard of prices have been charged for rooms, flats, apartments and houses in the midst of the most acute shortage of housing facilities the nation has ever faced.

Data gathered by the United Press indicates underlying causes for high rentals, as given by responsible real estate dealers, are:

**Hock to City**  
1. Unprecedented slump in building, accentuated by shortage of labor and building material and aided by increased prices for both.

2. Flow of population toward the city, in anticipation of high wages and an easier living. Thousands of persons drawn to industrial centers during the war have stayed in the cities, living in other lines of work.

3. The appearance of thousands of speculators, seeing chances to prey on the many home-seekers, and their renting of all available apartments, outfitting them with cheap furnishings and then re-renting at enormous prices.

New York's fight against rent profiteering has already been started by 30th attacks by Mayor Hylan and the Central Federated Union. The mayor announced he will confer with Commissioner James F. Gannon of Jersey City relative to Gannon's method of handling the rent strike.

The Central Federated Union, through Secretary Ernest Bohm, has decided to ask introduction into the legislature of a bill protecting the rights of tenants and making eviction impossible where eviction is threatened by refusal to pay exorbitant rents.

**Rents Up 250 Per Cent.**  
It was estimated here that rents had increased on an average of from 100 to 250 per cent. Simple and unpretentious quarters in poorer sections of the city, where not even all the ordinary conveniences were not afforded, have been charged for at from \$25 to \$25 a month, the same flat bringing from \$10 to \$18 four years ago.

Rents in more desirable sections of the city have soared from \$45 to \$60 for the average 4-room apartment with the usual conveniences, to \$100 to \$250 a month. Electricity and gas are invariably charged for extra. City officials recently estimated there is at present a shortage of 20,000 dwellings, 50,000 apartments and 10,000 rooms in Greater New York. Erection of this number, or a substantial portion of it, they asserted,

would be the only remedy for high rentals in the city.

FORMER KAISER MAKES  
SECRET TRIP TO DOORN

AMERONEGN, April 1.—For the first time since the Kapp revolution, former Emperor William Tuesday was permitted to leave the Bantick castle here. Guarded by two police officers, he made a secret trip to Doorn, in a closed automobile. His object was to

view the progress of the work on his future residence at Doorn.

The former emperor returned to Ameronegn a half hour later. Three rooms of his new residence now are in readiness and work on the others is progressing rapidly.
